

Become A **Mindology Fitness** Kids' Trainer

Mindology Fitness offers global, remote business opportunities for parents, grandparents, individual trainers, schools, teachers, and child-care providers committed to empowering the minds of children.

Mindology Fitness Kids is a Mind Care program that is specifically designed to be emotionally engaging and psychologically impactful for kids. While participating in the program, kids are given the tools they need to emotionally self-regulate and to ensure their peace of mind is in their hands at all times.

Is starting a Mindology Fitness business right for you?

The majority of Mindology Fitness Trainers for kids are individuals who are committed to expanding their child development business by adding quality programs such as Mindology Fitness to their regimen.

What is the Mindology Fitness training process?

The first step in the MFK training process is the classroom certification process. The classroom certification process is delivered via pre-recorded audio and video instruction. The pre-recorded audio and video classroom program is taught by MFK founder, Dr. Troy. The MFK trainees have access to the classroom training portion of the program twenty-four hours a day, seven days a week and can therefore move at their own pace and in the comfort of their home.

The second step in the MFK training process is the performance verification process. Each trainee is required to video tape their delivery of the program and

submit their performance to MFK corporate for evaluation. If the trainee's delivery of the program meets MFK corporate criteria, the trainee's ability to deliver the program will be verified.

Once classroom certification is complete and their program delivery is verified, the trainee becomes an official Mindology Fitness Kids' program trainer.

Who can become a Mindology Fitness Trainer for kids?

Any person or business owner who adores children, passes a background check and who is in search of an educational and empowering children's program that is science based with proven techniques and methodologies.
